Health Guarantee

Broken Sky Kennels, the breeder, warrants this puppy against hip-dysplasia and hereditary eye disease for the first 26 months of age.

The warranty only applies if x-rays are taken before the dog reaches 26 months of age and evaluated by the OFA. No dog over 26 months of age will be covered. We will only honor OFA readings. If they diagnose that the dog is dysplasia then the buyer will qualify for a replacement puppy (when available). If the puppy has been bred before the x-rays have been evaluated by OFA, this portion of the warranty is Null and Void. The puppy buyer must send "Broken Sky Kennels" documents from OFA stating that the dog has hip dysplasia. The dysplasia dog must be spayed or neutered and documents from the vet sent to "Broken Sky Kennels". At that time the breeder will replace the dog with a puppy of like quality (when available). The owner of the dysplasia dog must return it to the breeder.

Hereditary eye disease: The dog must be examined by a certified veterinarian ophthalmologist by 26 months of age. No dog over 26 months is covered. Puppy buyer must provide "Broken Sky Kennels" with the exam results if there is a hereditary eye disease in order to qualify for a replacement puppy. The owner of the dog must return it to the breeder.

Temperament: Our breeding program breeds intelligent, loving, friendly, loyal dogs. However, we make no warranty as to the eventual personality of the animal due to the influence of environment and training techniques, or the lack thereof.

The seller does not pay any veterinary fees such as OFA<CERF or shipping of puppy or any other associated costs.

VACCINATIONS AND VETERIANARIAN PHYSICALS: Our dogs and puppies are vaccinated as recommended for puppies of this age, have been wormed. Vaccinations and regular veterinary checkups are necessary throughout your puppy/dog's life to keep them healthy and happy. Worming is also a very common need with puppies and will require your attention not only as a puppy, but also continuing throughout your dog's life. It is recommended that your puppy is spayed/neutered after 12 months of age. Spaying/neutering your puppy at this age allows for fuller development of bones. Please consult with your veterinarian for recommendations for these procedures.

Right of First Refusal

In the event the puppy buyer cannot keep, wishes to sell, transfer ownership or dispose of the dog, the breeder is to be given the first right to take back the dog or buy back the dog at a negotiated price not to exceed the price purchased. Under no circumstances is the puppy or dog to end up in a rescue, pound, human society, etc. All registration forms and clearance documentation must be returned with the dog.

This Health guarantee/contract is only valid with the original purchaser of the puppy and is not transferable.

We sell our puppies on a "Limited Registration". Which means the puppy/dog cannot be bred. If the buyer wishes "Full Registration" there will be an additional fee of \$500.

In an effort to be a responsible breeder, we request that you contact us with any other health issues that your vet feels may be hereditary.

I/We the purchaser have read the conditions of this contract and agree to abide by them.
